WEB + 50 ARTICLES + BRAND · \$1,200
SOCIAL RETAINERS FROM \$500 / MO

I / THE SHORT VERSION

Terry — your work deserves better than page two.

The builds coming out of your shop are the kind people cross the city to see — the D100, the resto pickups, the LS swaps done right. But when someone in Edmonton searches for that work, the internet tells a different story: a directory that wrongly lists the shop as closed, a star rating that doesn't reflect what actually rolls out of your bays, and search terms like **"classic truck restoration Edmonton"** that nobody in the city has claimed. That last part is the opportunity.

I run kr8tiv — a small, founder-led design studio. No account managers, no agency games. I liked your shop enough that I didn't start with a pitch deck; I **started by building the actual website. Three times.** Three complete, custom-designed sites for 2240 already exist — one is live right now for you to drive. You pick the one that feels like your shop, and we finish it around you.

This document lays out one flat-price package that covers the website, fifty Edmonton-targeted articles that make Google and AI assistants send people your way, business cards to match, and the tools so your team can edit everything without ever calling a developer. Plus an optional monthly engine for social, if you want the content to keep compounding.

Read it in five minutes. Then let's talk.

FOUNDER · KR8TIV.IO

/ 001

LONG GAME

A website today, a legend of a brand in five years. We build for the long run — kr8tiv clients tend to stay clients.

/ 002

FOUNDER HONEST

I've been the client. I know the pain of agencies that ghost you after kickoff — so I built the partner I always wished I had.

/ 003

BUILT, NOT PROMISED

Most agencies sell you mockups. Your three websites are already built. You're choosing, not gambling.

/ 004

REAL GOAL

Not the biggest studio. The one owners quietly recommend to their friends when they're telling the truth.

II / WHY FIFTY ARTICLES BEAT PAID ADS

Ads *rent* attention. Articles *own* it.

PAID ADS — THE TREADMILL

You pay per click, forever. Automotive keywords in Edmonton run dollars per click — whether that click books a build or bounces in five seconds.

The second you stop paying, you vanish. Pause the budget and it's like the shop never existed online.

Rented ground. Ad platforms raise prices every year, and your money builds their asset — not yours.

FIFTY ARTICLES — THE ASSET

Written once, working every day. An article answering “what does an LS swap cost in Alberta” keeps pulling in searchers for years — at zero cost per click.

Ranks in Google AND in AI answers. When someone asks ChatGPT or Google's AI who restores classic trucks in Edmonton, the source they cite is whoever wrote the genuine, deep answer. That becomes you.

Authority compounds. Fifty real answers make 2240 *the* reference for customs and classics in Edmonton — and push the stale listings and bad directories off your first page.

SEARCHES NOBODY IN EDMONTON HAS CLAIMED — UNTIL NOW

Three workstreams. One number.

Website, content engine, and print — the three jobs shops usually hire three different vendors for, delivered as one flat package. Here’s every line, priced against what this typically costs when bought separately.

WHAT YOU GET	TYPICALLY
Full custom website build You pick one of three custom-designed sites already built for 2240 (next page) — then we refine and finish it around your builds, your voice, your photos.	\$2,500+
50 Edmonton-targeted articles — SEO + AI-search optimized Researched, naturally written answers to what Alberta gearheads actually search — costs, swaps, winter, legalities. No keyword-stuffed filler. Built to rank in Google and get cited by AI assistants.	\$3,750+
New business cards, matched to the site Print-ready design in the same design language, so the card in someone’s hand matches the site on their phone.	\$150+
Instagram → website auto-posting Post a build to Instagram like you already do — it appears on the website automatically. The site stays alive without you touching it.	\$300+
Full CMS backend — you edit everything Change prices, photos, pages, hours — anyone on your team can edit any part of the site, any time, no developer ever needed.	\$600+
On-page SEO + AI optimization, wired in Structured data, local-search signals, and AI-readable markup on every page — the plumbing that makes the articles actually pay off.	\$500+

BOUGHT SEPARATELY ~~\$7,800+~~

YOUR PRICE — EVERYTHING ABOVE

\$1,200

ONE-TIME · ROUGHLY 3× THE VALUE, ON PURPOSE

IV / THREE WORLDS, ALREADY BUILT

Pick the one that feels like your shop.

Not mockups, not moodboards — three complete, custom-designed websites built specifically for 2240.

Same real content and real photos in all three; three completely different souls.

/ 001 — THE CINEMATIC ONE

Midnight Garage

A full 3D shop world behind the whole site — scrolling walks the camera from station to station past your builds, hoists, and neon. The kind of site other shops screenshot and send each other.

STATUS: LIVE ON A PREVIEW LINK • 3D WORLD • SCROLL-DRIVEN

/ 002 — THE DRAMATIC ONE

After Hours

The shop at 11 p.m. — one halogen lamp burning, a finished car rim-lit in the dark. Massive type, cinematic chapters, every glow coming from a real light source. Moody, heavyweight, unforgettable.

TUNGSTEN & FILM GRAIN • KINETIC TYPE • NIGHT CINEMA

/ 003 — THE GALLERY ONE

The Collection

Museum-grade white, editorial serif, hairline grids — your builds presented like lots in a high-end auction catalogue. Quiet, premium, and it makes every truck look like a six-figure sale.

AUCTION-CATALOGUE WHITE • EDITORIAL SERIF • LOT SHEETS

You don't lose the other two. Whichever world you pick becomes the site — and the best parts of the runners-up get folded in where they fit. All three were built on spec, before any money changed hands, because the work was worth doing.

V / PACKAGE 02 — THE ONGOING ENGINE · OPTIONAL ADD-ON

The site is the engine. This is the *fuel*.

Your bays are full — nobody at 2240 has spare hours to feed Facebook, Instagram, and TikTok. We run them for you: real posts from your real builds, plus fresh articles every month so the SEO keeps compounding instead of going quiet. Month to month, cancel anytime.

Why this pairs with the build: the fifty launch articles put 2240 on the map — the monthly articles and videos keep it there. Search engines and AI assistants both reward sites that stay alive. A shop posting real builds every week is unbeatable content; it just needs someone to run the camera roll.

VI / THE MONEY & THE ROLLOUT

Simple terms. *No surprises.*

OPTION A — THREE EASY STAGES

40 / 40 / 20

To start — kickoff & template pick	\$480
On completion — site approved by you	\$480
On delivery — handoff, cards & training	\$240

OPTION B — KEEP IT SIMPLE

40 / 60

To start — kickoff & template pick	\$480
On delivery — everything handed over	\$720

WHICHEVER FEELS RIGHT — YOU CHOOSE

- WEEK 1

Pick your world & kickoff

You drive all three sites, pick one, and we sit down (or hop on a call) on what to tune — photos, builds to feature, wording.
- WEEKS 2-3

Refine & wire everything in

Site polished around your picks. CMS set up, Instagram auto-posting connected, business cards designed and sent print-ready.
- WEEKS 3-6

The fifty articles roll out

Published in researched batches so Google reads steady, natural growth — each one targeted at a real Edmonton search.
- HANDOFF

Keys to everything — then 90 days on call

Training walkthrough for you and the team, all logins yours, and I stay on call for the first ninety days at no charge.

1.

Say the word. Text, email, or call — whatever's easiest.
2.

Drive the three sites. Ten minutes each, pick your favourite.
3.

Deposit lands. \$480 starts the clock on the rollout above.
4.

We build. You run the shop; I'll handle the internet.

Ready when *you are.*

No pressure and no expiry date on the handshake — but the Edmonton searches on page three stay unclaimed only until somebody claims them. I'd rather it be you.
